# V-TOURS FOR BUSINESS CULTURE

V-Tours Project is financed by Erasmus+ Programme and developed by seven international partners from four countries. The Project consortium is composed by: University of Padova (IT, coordinator), International University of la Rioja (ES), Laurea University of Applied Sciences (FI), Ss. Cyril and Methodius University in Skopje (MK), Fundación Universidad-Empresa (ES), Cramars (IT) and Anthea Consulting s.r.l. (IT).

V-TOURS project makes available a relevant set of learning opportunities geared to foster understanding of work environments; promote acquisition of career development skills; and improve employability of students and graduates.

## Virtual Tours for Business Culture

Enhance your academic performance while building career-readiness skills that employers seek. Assess your skills, go through V-TOURS learning paths and meet in streaming companies that can become your future employers!

### Research

Entrepreneurs brief us of which competences they expect from newly graduated and about possible ways of effective collaboration with Universities

### Platform

Our team develops a student-friendly on-line platform which collects all materials developed during project lifetime

### Learning materials

After we gather all relevant facts, we do brainstorm and construct courses focused on developing critical thinking, teamwork, creativity and innovation, future orientation and communication

### Virtual Tours

We organise online events in selected companies where managers present internal organisation and processes and answer questions in real time.

### Guidelines

We share our experience with others giving the basis for the exploitation of the developed materials and tools by further universities and enterprises in Europe

# V-TOURS PROJECT RATIONALE

TOURS supports acquisition of **transversal competences** in a lifelong learning perspective by supporting student's employability defined as a set of achievements – skills, understandings and personal attributes – that make graduates more likely to gain employment and be successful in their chosen occupations, which benefits themselves, the workforce, the community and the economy.
